

28th Annual WAITTA INCITE Awards 2018-2019

Category Information Guide

CATEGORY: RESEARCH AND INNOVATION PROJECT OF THE YEAR

Overview

Research and Innovation constitutes the first stages of development of a potential new service or product by individuals, the community, industry and academia. The award includes digital research development activities undertaken in developing novel "new to market" services or products or improving existing services or products within Western Australia.

Description

Research and Innovation refers to digital development activities undertaken by postgraduates, corporations, universities or governments in developing new digital services or products, or improving existing services or products. Research and Innovation constitutes the first stages of development of a potential new service or product.

The Research and Innovation award is for outstanding Digital Research, Development & Innovation.

Eligibility

Entrants must own at least some of the intellectual property of their Innovation, or be in the process of negotiating IP ownership or licence agreement. If requested, details of the IP ownership or licence agreement of the Innovation must be able to be provided.

NOTE:

- The Research and Innovation award includes entries from post-graduate tertiary students.
- Involvement of the supervisor in stage 2 judging can only be as an observer.

Sample Market Sectors

AI, machine learning, remote service delivery.
